- Bootstrap , Tailwindcss
- React.js , Next.js
- React-native , Redux
- Node.js , Express.js

Databases :

- PostgreSQL , MySQL
- MongoDB

API Technologies :

- REST API , axios
- GraphQL , Socket.io

Version Control :

- Git, GitHub, GitLab

Tools :

- VSCode , Android Studio

Soft Skills

- Problem solving
- Quick Learner
- Adaptability
- Proactive
- Motivated
- Team Collaboration

Languages

- Arabic: Native
- English: Proficient
- French: Conversational

Experience

Full Stack JS Developer : EyeOtech

03/2024 – present

Ben Arous, Tunisia

- Led front-end and back-end development for high-performance web and mobile applications, significantly reducing load times and boosting user engagement.
- Enhanced application performance by 50% and design efficiency through strategic code refactoring, optimized algorithms, and Tailwind CSS for streamlined styling.
- Mentored 2 intern developers, improving code quality and reducing bugs in production.

Full Stack JS Developer : MajCake

07/2023 – 01/2024

freelance

- Collaborated with a remote, cross-functional team in Poland, accelerating project delivery through effective communication and agile project management.
- Gained advanced expertise in the MERN stack, enhancing productivity and supporting junior developers in reaching project milestones.
- Improved codebase maintainability by reducing technical debt through consistent code reviews and best practices.

Projects

Enterprise Management System (EMS) Web Application (SIRH) :

- A web-based platform that centralizes HR management by organizing employee documents, vacations, and salaries while enhancing productivity through real-time tracking.

Technologies : React.js, Express, GraphQL, TailwindCSS, PostgreSQL, Sequelize.

E-commerce Mobile Application (PROXECO) :

- A mobile app that connects sellers, stores, users, and delivery services, facilitating product browsing, purchasing, and efficient order fulfillment with real-time tracking and seamless communication.

Technologies : React Native, Express, REST API, PostgreSQL, TypeORM, Socket.IO, Redux.

Job Portal Web Application (JOLT) :

- A web app that streamlines the hiring process by enabling companies to create employee profiles and manage job postings, enhancing connections between employers and potential hires.

Technologies : Next.js, Express, REST API, TailwindCSS, PostgreSQL, Prisma, Redux.

E-commerce Web Application (Slodka Szkola) :

- A web app that sells cakes and offers cake-making courses, providing secure payments and engaging tutorials for users to enjoy delicious treats and learn baking skills.

Technologies : React.js, Express, REST API, SCSS, MongoDB, Mongoose, TypeScript.

Certifications

FullStack JS Developer

12/2022 – 06/2023

Certificate

Best Challenge Center

Sousse, Tunisia

Education

Technicien Maintenance

10/2018 – 06/2021

Applied License

ISET Rades

Rades, Tunisia
